NSP No Skidding® ANTI-SLIP BATH TUB TREATMENT FOR ENAMEL & PORCELAIN TUBS & SHOWERS #10900 SERIES

Packing:

#10904 4 oz. (118 ml) 24 per carton
#10908 8 oz. (237 ml) 12 per carton
#10932 32 oz. (942 ml) 12 per carton

About No Skidding® Anti Slip Treatment On Hard Floors

A clear chemical treatment that increases the coefficient of friction on natural stone and porcelain tub surfaces, thereby increasing the safety of the surface when wet. The product has easy application features and low odor. It does not noticeably alter the appearance of the surface. Does not adversely affect the maintenance of the surface.

No Skidding® Tile & Bath Tub Treatment #10900 Series

Major hotel chains are using this product on tens of thousands of tubs with dramatic increases in safety. Quick and easy to apply. Simply pour over the base of the clean tub, leave for 3 minutes and rinse with water. With correct housekeeping the one application will prevent slip injuries for years. Only 4 oz. (125 ml) required per 5 ft. tub.

Long Lasting Slip and Fall Protection In Bathtubs & Showers

Helps prevent slip and fall accidents on;

- Enamel and Porcelain Bathtubs, Saunas and Hot Tubs
- Ceramic Tile Shower Floors
- Ceramic, Granite and selected Marble Bathroom Floors
- Tile areas surrounding Whirlpools and Hot Tubs
- Effective on most Hard Mineral Surface

NO SKIDDING® ANTI-SLIP TREATMENT minimizes the danger of slip injuries in bath tubs and showers by increasing the slip-resistance on wet porcelain tubs and tiled shower floors. It creates an "invisible tread" on hard mineral surfaces such as porcelain tubs, ceramic tile, quarry tile, terrazzo, and more. Recommended for use in bathrooms of hotels, hospitals, senior care facilities, fitness clubs, schools and in the home.

THE SURFACE IS ACTUALLY SAFER WET THAN DRY!

What is No Skidding® Treatment?

No Skidding® Treatment is a water based, low odor, colorless liquid. It is not a coating that can wear and that requires repeated re-application.

No Skidding® Treatment is simply applied to the base of the tub. The surface is kept wet with the Treatment, then rinsed away with clean, cold water. This simple process will increase the coefficient of friction and will typically be effective for up to 5 years with the one application. The surface can be put back into use immediately. There is no cure time as with coatings.

Directions for Use

- Clean tub so as to remove soap residue. Rinse thoroughly with water.
- Remove any plastic appliques.
- Slowly pour four ounces of Treatment over bottom of tub and spread with a clean brush or pad.
- Apply only to the bottom of the tub, not the upward curves.
- Keep wet for three minutes with the Treatment then turn on the shower to flush Treatment away or use a pail of clean water to rinse away.
- Tub can be put back to use immediately.
- Always keep base of tub clean to maintain efficiency of treatment.

NOTE Not effective on fiberglass or acrylic tubs. If after Treatment is applied a milky substance appears, rinse tub with water. Tub is too worn to treat. Refinished (painted) tub cannot be treated.

IMPORTANT Avoid contact with eyes and skin. Do not ingest. Keep out of reach of children.

LIMITED WARRANTY
No Skidding Products Inc. (NSP) warrants that this product conforms with NSP's written specifications and is free from defects. NSP disclaims any other warranties, expressed or implied, including the warranties of merchantability and fitness for a particular purpose. ORIGINALS AVAILABLE ON REQUEST

"It has to be the easiest and most cost effective way to protect against slipping and falling in our tubs. The surface of our tubs has not been altered in any way and are very easy to keep a clean appearance."

-Major U.S. Hotel Chain

"It went on easily and had no obnoxious odour... Now we know that our guests are safe from slipping and falling..."

-Resort Hotel

"The No Skidding® product has provided the staff with a safer environment. The surface provides better traction for staff and is slip resistant."

-Nursing Home Chain

How does No Skidding® Treatment work?

All natural stone including porcelain tubs contains small amounts of silica. No Skidding® Anti Slip Treatment is carefully formulated to dissolve a controlled amount of the silica so as to create thousands of minute, shallow indentations in the surface.

This profile is so subtle that it cannot be seen or felt. Because the profile sits **BELOW** the level of the surface, it does not affect the cleaning process as with a profile that stands **ABOVE** the surface such as an anti-slip paint coating.

When the surface is wet with water, these shallow indentations fill. When you stand on the wet surface and your foot starts to slide, the water is squeezed out of the indentations turning them into thousands of suction cups that helps stop the foot from slipping.

All that is required is good housekeeping to keep the surface free of soil accumulation and soaps.

No Skidding® Treatment is a simple, very low cost and low maintenance method of boosting tub and floor safety. See "testimonials" in our website www.noskidding.com. This product cannot eliminate the possibility of slipping.

PLEASE READ AND FULLY UNDERSTAND LABEL AND MSDS BEFORE USING.

Important: Seller's and manufacturers only obligation shall be to replace such quantity of the product proved to be defective. Neither seller nor manufacturer shall be liable for any injury, loss or damage, direct or consequential, arising out of the use of or the inability to use the product. Before using, user shall determine the suitability of the product for the intended use, and the user assumes all risk and liability whatsoever in connection therewith.
